Enterprise Document Assessment Methodology

## Top 5 Office Document Producing States

The data represented in this report is summarized for simplicity. It is based on our independent assessments, research and computational analysis encompassing more than 150 published government, academic, and private research data sources.

We researched the current Fortune<sup>®</sup> 1000 US based headquarters companies to determine the top five highest office document producing states for 2018.

This document is intended for discussion purposes.
